Professional Summary

Full Stack Engineer with hands-on experience in JavaScript, TypeScript, React, Node.js, Express, Java, Spring Boot, MongoDB, MySQL, and REST API development. Skilled in building responsive user interfaces, backend services, and data-driven web applications. Interested in product-focused engineering, clean architecture, and cloud-ready application delivery.

Core Skills

React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Express.js, REST APIs, JWT, Authentication, Spring Boot, Java, MySQL, MongoDB, PostgreSQL, Azure, Git, GitHub, CI/CD, Agile, System Design, API Design, Database Design, Responsive UI, Product Engineering

Professional Experience

Software Engineer - Backend *Feb 2026 - Present*
FinMkt, Hyderabad, India

- Working on backend development using Spring Boot, MongoDB, and REST API workflows to support application functionality and service integration.
- Contributing to backend architecture, data processing patterns, and maintainable application logic for business workflows.
- Supporting API development, database operations, and service-oriented implementation patterns within the current product environment.

Software Engineer Intern *May 2025 - Feb 2026*
FundRaksha LegalTech Pvt Ltd, Hyderabad, India

- Developed responsive React-based interfaces and dashboards for B2B legal-tech workflows with a focus on usability and clean user experience.
- Integrated REST APIs and frontend data flows to support real-time product behavior and improved application responsiveness.
- Collaborated with stakeholders to convert product requirements into working frontend modules and maintainable component-based implementations.
- Improved page performance and UI consistency through structured frontend development and reusable component patterns.

Selected Projects

Unified Data Processing Engine *Spring Boot, Java, MongoDB*

- Built a backend data-processing layer to support CRUD operations, filtering, projection, pagination, and transactional workflows.
- Designed reusable service patterns to improve consistency, reduce duplication, and simplify future data processing requirements.
- Added logging and traceability to support easier debugging and operational visibility in backend services.

Business CRM and Lead Operations Platform *React, Express, MySQL, JWT*

- Developed a full-stack CRM platform for lead tracking, task management, and sales workflow visibility.
- Implemented modular API architecture and secure authentication to support user management and role-based access.
- Designed a responsive frontend with reusable components to improve usability and operational efficiency.

AI Healthcare Assistant *React, Tailwind CSS, Gemini API*

- Built a conversational AI healthcare assistant with a clean and responsive user interface.

- Integrated frontend UX with external AI services to support real-time user interactions and structured data flow.

Productivity and Finance Tracker *React, Express, MongoDB, JWT*

- Developed a dashboard for tracking tasks, spending, and personal productivity workflows.
- Implemented secure user flows and data persistence to support a more complete product experience.

Education

B.Tech in Computer Science and Data Science *2022 - 2026*
Sasi Institute of Technology and Engineering, Tadepalligudem, Andhra Pradesh
Relevant coursework: Data Structures and Algorithms, Database Management Systems, Software Engineering, Web Technologies, and Data Analytics.

Intermediate Education (MPC) *2020 - 2022*
Sasi Junior College, Tadepalligudem, Andhra Pradesh
Performance: 94.1%

Certifications

- Full-Stack Web Developer Certification, LinkedIn Learning, 2025
- Oracle Java Foundations, LinkedIn Learning, 2025
- MongoDB Developer Path, MongoDB University, 2025
- Learning SQL Programming, LinkedIn Learning, 2025
- Scrum Fundamentals Certified (SFC), SCRUMstudy, 2025
